Battery holder for Apple Vision Pro Instructions

Thank you for purchasing the Bartallama3D Apple Vision Pro Battery Holder with Arm Band.

Say goodbye to the hassle of managing your Apple Vision Pro battery and avoid the clunkiness of the attached battery. Our snap-fit design ensures a secure hold, and the top cutout provides an effortless battery removal experience, allowing you to easily pop it out from the back. Our battery holder comes pre-assembled and ready to use. The arm band allows you to securely attach the battery to your arm. Enjoy the freedom of movement without the device's power source getting in your way.

Key Features of the Apple Vision Pro Battery Holder with Arm Band

- Perfectly fits the Apple Vision Pro Battery and has a snap fit for installation
- Cutout for easy battery removal out of the holder
- 14 inch long Arm Band fits most upper arms
- Holder does not block charging port from access
- Batter mounts both top-down and down-top inside the unit
- Comes with a cable tie to secure excess battery cord

The battery holder comes pre-assembled. Full product details, specifications, additional links, revision history, product photos, and demo video can be found on our website at <https://Bartallama3D.design/products/10-apple-vision-pro-battery-armband>
